

# XactRebuild

Automated rebuild reports for faster estimates

Start your estimate with 60% already done.

Turn hours of work into minutes while maintaining the precision you depend on. XactRebuild™ accelerates your workflow by automating up to 60% of your estimating process

## Proven time savings that reduce costs

Based on our comprehensive time studies, expert estimators using XactRebuild reduce room assessments from 15 to 10 minutes on average, while beginners cut their time from 30 to 20 minutes. These efficiency gains allow adjusters to handle more assignments and achieve meaningful cost savings across their operations.

Average savings per estimate\*:

**\$48.14**

for expert  
estimators

**\$54.67**

for average  
estimators

**\$59.91**

for beginning  
estimators

**Traditional estimate:**

**3-5**

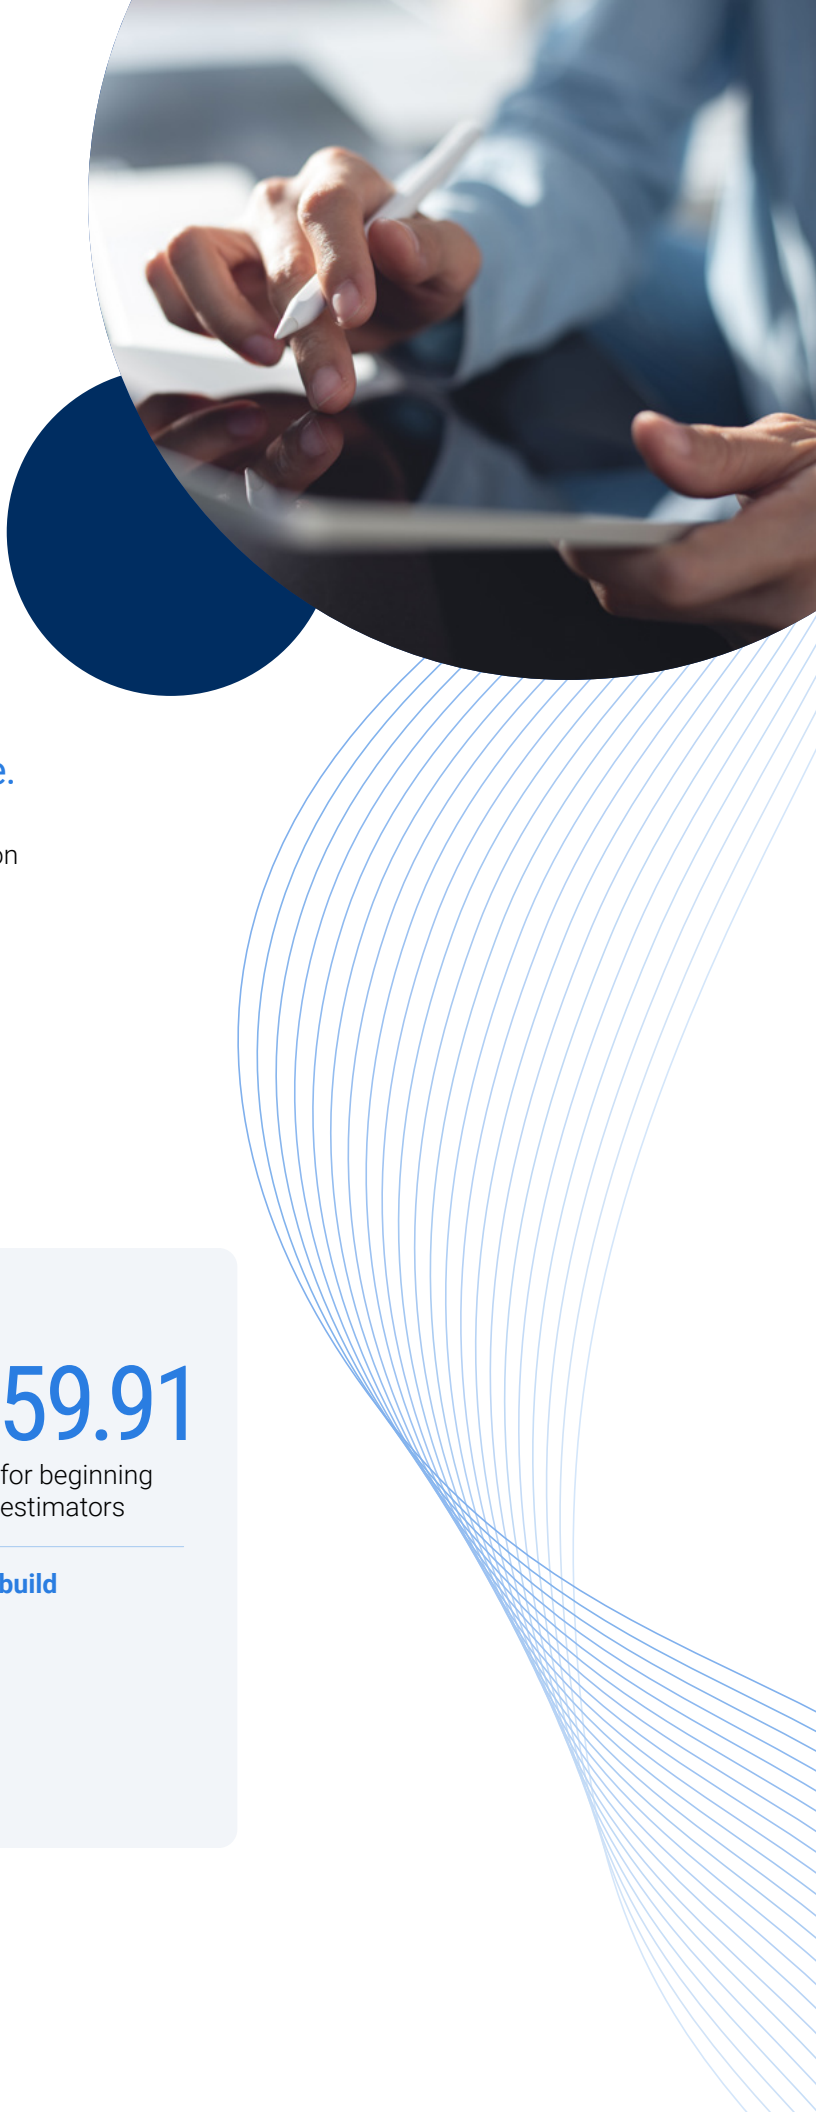

hours

**With XactRebuild**

**1-2**

hours

\* Based on an average 10-room water mitigation claim.

## Real results

A company handling 1,500 water mitigation claims annually **saves an average of \$79,700 per year** using XactRebuild.

## Your digital advantage

Access estimates anywhere, anytime. The XactRebuild cloud-based platform integrates seamlessly with Xactimate® Professional, automatically backing up your work and enabling team collaboration from any device.

## Professional features

-  Industry comparison reports
-  Automatic data backup
-  Desktop and mobile access
-  Program and non-program claim support
-  Clear documentation trail
