

# Account Services for Field Service Tools

**Unlocking peak performance for PPW, Pruvan,  
and XactPRM**

## Turn your potential into results

Your field service platforms (PPW™, Pruvan®, and XactPRM®) can do more—the advanced features that drive real efficiency gains are there, waiting. What stands between you and those results? Time. Resources. The complexity of manual setup.

Customized Account Services is the answer. Our experts will tackle those challenges on your wish list—while you focus on what you do best.

## Services built around your success

Customized  
training  
sessions

Advanced  
feature setup

Property  
condition report  
form creation

Workflow and  
operations  
consulting

## Ready to move forward?

Let's talk about how we can accelerate your success.

complimentary  
one-hour consultation  
for new Account  
Services customers!

## Your path to peak performance

### Advanced feature setup

- **Pricing configuration:** We configure automatic pricing filters for clients, vendors, geography, and more.
- **Auto assignment:** Automatically assign work orders by work type category, geography, vendor capacity, and other criteria. Complex to configure, simple to use once it's working for you.
- **System rules engine:** Powerful automation tool for various functions. We configure this sophisticated system to match your specific business rules and accelerate your workflows.

### Training and consulting

- **Customized training:** Vendor and employee sessions built around your workflows, not generic tutorials
- **Operations consulting:** Strategic guidance on workflow optimization that puts efficiency within reach

### Custom form creation

- **Property condition report forms:** Built to your exact specifications and business requirements

### Straightforward pricing

#### Individual hours

**\$150/hr**

when booked individually

#### Remote service blocks

**\$500**

for four-hour blocks (\$125/hour)—delivered remotely for your convenience

#### In-person services

**\$125/hr**

plus travel expenses

### The bottom line

Let us handle the complex setup work so you can focus on growing your business, eliminate setup frustrations, and get the full value from your investment through our expert implementation experience.
